TURN ANY COLD WATER PRESSURE WASHER INTO A HOT WATER PRESSURE WASHER

This Hot Water Heater attaches to a cold water pressure washer and converts it into a hot water cleaning machine. The cold water pressure washer sends the high-pressure water into the Hot Water Heater which heats the water before dispatching it to the wand. When the gun is pulled the burner automatically fires and stops when it is released. Simply quick couple the Hot Water Heater jumper hose to almost any cold pressure washer, and attach the pressure washers hose, gun, wand and nozzles to the outlet on the Hot Water Heater. Rugged, dependable, east to operate with low maintenance costs. This unit continuously heats as much as 5 gpm up to 200 degrees with the adjustable thermostat unit.
