

# IH Series "HotBox"

**COOL UPGRADE**

TURN ANY COLD WATER PRESSURE WASHER  
INTO A HOT WASHER

This Hot Box attaches to a cold water pressure washer and converts it into a hot water cleaning machine. The cold water pressure washer sends the high-pressure water into the Hot Box which heats the water before dispatching it to the wand. When the gun is pulled, the burner automatically fires and stops when the gun is released. Simply quick couple the Hot Box's jumper hose to almost any cold water pressure washer, and attach the pressure washers hose, gun, wand and nozzles to the outlet on the Hot Box. Rugged, dependable, and easy to operate with low maintenance costs, this unit continuously heats as much as 6gpm up to 195° with it's adjustable thermostat.
